2. DAT and GPA Averages of 1986-87 First-Year Students	4
3. DAT Scores Used as Admission Criteria, 1986-87	5
4. Grades, etc. Used as Admission Criteria, 1986-87	6
5. DAT Scores Ranked by Importance as Admission Criteria, 1986-87	7
6. Grades, etc. Ranked by Importance as Admission Criteria, 1986-87	8
7. Advanced Placement for Transfer Students, 1986-87	9
8. First-Year Tuition and Annual Related Educational Expenses in Dental Schools in the United States and Canada, 1986-87	10
9. Dental Schools which offer a Combined DDS and Other Degree, 1986-87	11

INTRODUCTION

The supplements to the Annual Report on Dental Education are intended to provide the Commission on Dental Accreditation, dental educators and practitioners, state and federal agencies, and other interested groups and individuals with information on various aspects of dental education. The purpose of the present supplement, **Dental School Admission Information**, is to provide information regarding admissions and the admissions policies of the 69 dental educational institutions* located in the United States, Puerto Rico, and Canada. Specifically, the information being reported in this supplement includes the number of applications received by dental schools, the academic qualifications of first-year students, the criteria employed in the admissions process, advanced placement for transfer students, first-year tuitions and annual related educational expenses, and combined degree programs in dental schools. The information in this report was obtained from the 1986-87 Survey of Predoctoral Dental Educational Institutions, American Dental Association.

Table 1 reports the total number of applications filed at each individual dental school for admission into the 1986-87 freshman class. The total number of applications filed at United States dental schools was 29,060. This is a decrease of 9.7% from the number reported last year (32,195). There were a total of 20,687 (71%) applications filed by males and 8,373 (29%) filed by females. The first-year enrollment also is reported in Table 1. There were 3,167 (70%) males and 1,387 (30%) females accepted in the 1986 freshman class. Therefore, the application/acceptance ratios for males and females were comparable.

Please note that each applicant applies to approximately five schools. This makes the number of applications received by the schools (as listed in Table 1) much greater than the number of individuals applying to dental schools. For the year 1986, there were 29,060 applications received by the schools, there applications were submitted by 5,724 students. The actual ratio between individual applicants and accepted first-year students is 1:3 to 1.

Table 2 reports the average Dental Admissions Test (DAT) results and grade point averages (GPA) for the 1986-87 freshman class. The mean DAT academic average was 4.35, with 10 schools reporting an average score of 5 or better. The mean DAT perceptual ability test score was 4.50 with 11 schools reporting an average score of 5 or better. Both the 1986 overall mean academic average and mean PAT scores decreased slightly from last year's mean values. The mean academic average for 1985, first-year students was 4.41, and the mean PAT scores was 4.55. The mean predental science GPA for the 1986 entering freshman class was 2.86 while the mean predental non-science GPA was 3.18. The 1986 mean predental non-science GPA decrease slightly from last year's mean value. The mean predental science GPA for the 1985 entering freshmen class was 2.86, while the mean predental non-science GPA was 3.19. Table 2 also includes the overall predental GPA for the 1986-87 freshman class.

Table 3 reports the DAT scores used in the admissions process for the 68 United States and Canadian dental schools for the 1986-87 academic year. An examination of the tabled entries indicates that all 58 dental schools in the United States employ the DAT academic average perceptual ability test results in the admissions process.

Table 4 reports the predental grades used as admissions criteria by the same set of institutions. As shown, all 58 dental schools in the United States employ the predental science GPA in the admissions process. This table also indicates whether interviews, recommendations, and manual dexterity tests are used. Finally, the number of requires years of predental education are reported. As shown for the 58 dental schools in the United States, 29 institutions require three years of predental education, 27 institutions require two years and two require four years.

Tables 5 and 6 show the relative rank of importance associated with the various criteria included in the admissions process for each of the 68 dental schools in the United States and Canada. The median values reported for the criteria indicate that DAT academic averages, DAT perceptual ability test scores, DAT science scores, as well as predental science and overall GPAs, are important criteria for most institutions. Admission interviews also are ranked as important at many institutions.

Table 7 shows possible advanced placements for transfer students. Columns 6 and 7 indicate whether the school grants credit for certain course only or for an entire term.

Table 8 reports the first-year tuition and related educational costs for the 1986-87 academic year. Columns 2 and 3 indicate the resident and non-resident tuitions, column 4 indicates that amount charged for general fees for the first year, columns 5 to 8 indicate other educational costs for all four years. The average first-year resident tuition for all institutions in the United States is \$7,557.00 while that for public institutions is \$3,685.00, private institutions is \$14,600.00, and private-state related is \$11,491.00.

Table 9 reports the dental schools which offer combined degree programs. An examination of the table indicates that 21 dental schools offer a combined DDS-PhD program, 20 schools offer a combined DDS-MS program, 5 schools offer a combined DDS-MPH program, 2 schools offer a combined DDS-MD program, and 12 schools offer a combined Predental-Dental program.

*Emory University is discontinuing its dental education program and is no longer accepting an entering class.

INTRODUCTION

The supplements to the Annual Report on Dental Education are intended to provide the Commission on Dental Accreditation, dental educators and practitioners, state and federal agencies, and other interested groups and individuals with information on various aspects of dental education. The purpose of the present supplement, **Dental Education Trend Analysis**, is to provide information regarding trends in dental school applications and enrollments. Specifically, the information reported in this supplement includes numbers of applications, first-year and total predoctoral enrollments, attrition rates, numbers of graduates, first-year tuitions and fees, and licensure results. The tables that comprise this supplement are self explanatory and readily interpretable. A number of trends may prove especially noteworthy, however.

The values in Table 2 show that the number of applications to dental schools has declined by 9.7% from 32,195 in 1985 to 29,060 in 1986. This is the eleventh consecutive year that a decline has been reported. This trend in the number of applications to dental schools reflects a decline in the number of applicants. Specifically, the number of applicants to dental schools declined by 7.9% from 6,216 to 5,724. The application to applicant ratio was 5.5:1 in 1985 and 1986.

Table 3 indicates that first-year enrollment (FYE) declined by 6.0% from 4,843 in 1985 to 4,554 in 1986. Table 1 below displays ten-year trend data on the number of applications, number of applicants, first-year enrollment, and the ratio of applicants to first-year enrollment. Since 1977, due to the reduction of the applicant pool, the applicants to first-year enrollment ratio has decreased from 2.16 in 1977 to 1.26 in 1986.

TABLE 1
TRENDS IN THE NUMBERS OF APPLICATIONS, APPLICANTS,
AND FIRST-YEAR ENROLLMENTS, 1977-1986

Year	Number of Applications	Number of Applicants	First-Year Enrollment	Ratio of Applicants/ First-Year Enrollment
1977	81,765	12,837	5,954	2.16
1978	66,585	10,766	6,301	1.71
1979	58,715	10,000	6,132	1.63
1980	52,218	9,601	6,030	1.59
1981	46,894	8,852	5,855	1.51
1982	41,466	7,724	5,498	1.40
1983	38,004	7,128	5,274	1.35
1984	35,413	6,490	5,047	1.29
1985	32,195	6,216	4,843	1.28
1986	29,060	5,724	4,554	1.26

Tables 10 through 15 contain data on enrollments and graduates related to minorities and women. Table 11 indicates that first-year enrollment of women in dental schools increased 4.8% from 1,324 in 1985 to 1,387 in 1986. Table 13 indicates that there has been an increase of 0.5% in first-year minority enrollment from 1,105 in 1985 to 1,110 in 1986.

Table 18 contains licensure examination information for selected years from 1950 to 1984. The licensure results were obtained from the State Board of Dental Examiners, the Northeast Regional Board, the Central Regional Dental Testing Service, the Southern Regional Testing Association and the Western Regional Examining Board. Please note that because of the manner in which the data was collected and reported, those states participating in regional examinations have zero failure rates.

N/AV - NOT AVAILABLE

+ - PROGRAM NOT IN OPERATION

++ - IN THIS REPORT THE 1981-82 FIGURE FOR COLORADO RESIDENTS ATTENDING U. OF COLORADO IS THE AMOUNT ACTUALLY PAID BY THE STUDENT AFTER TUITION REMISSION. IN ORDER TO ALLOW MEANINGFUL TREND ANALYSIS, FIGURES FOR THE PREVIOUS YEARS HAD ALSO BEEN ADJUSTED FOR REMISSION.

* - R = RESIDENT NR = NON-RESIDENT

** - TUITION FOR NON-RESIDENT VARIES ACCORDING TO GEOGRAPHICAL RESIDENCE OF APPLICANT.

@ - UNIVERSITY OF THE PACIFIC HAS A THREE-YEAR PROGRAM.

4. Non-Resident Total Cost, 1981-86	21

INTRODUCTION

The supplements to the Annual Report on Dental Education are intended to provide the Commission on Dental Accreditation, dental educators and practitioners, state and federal agencies, and other interested groups and individuals with information on various aspects of dental education. The purpose of the present supplement, **Dental School Tuition**, is to provide information regarding the tuitions and fees for the fifty-nine dental educational institutions located in the United States and Puerto Rico. Specifically, the information being reported in this supplement includes resident and non-resident tuitions, general fees, and other fixed costs associated with instruments, textbooks, and health services. The information in this report was obtained from the 1986-87 Survey of Predoctoral Dental Educational Institutions, American Dental Association.

Table 1 of the present report provides a yearly summary of the resident and non-resident tuitions associated with each of the fifty-nine dental schools. As shown, the dental school tuitions, for each year, for residents range from a maximum of \$22,728 at the University of the Pacific to a minimum of no tuition at both the University of California, San Francisco and the University of California, Los Angeles.* It should be noted, however, that the University of the Pacific has a three-year program. As such, the total undergraduate tuition for this institution is less than for a number of other four-year programs with lower yearly tuitions. It also should be noted that Harvard University has a five year program.

Table 2 provides a listing of first-year resident and non-resident tuitions rank ordered by the ratio of non-resident to resident tuitions. Tables 3, 4, 5, and 6 provide a listing of the undergraduate fees, and instrument, textbook, and health service costs for dental institutions for the four years of the undergraduate programs.

Tables 7 and 8 show resident, first-year costs rank-ordered by tuitions and fees. Table 7 shows a rank order for all institutions, and Table 8 shows rank orders for institutions grouped according to their status as public, private, or private-state related institutions. Tables 9 and 10 provide the same information; however, the institutions are rank ordered according to costs. Figures 1 and 2 depict the mean, total resident and non-resident first-year tuitions and fees for the years 1981 to 1986.

The remaining four tables provide lists of institutions and associated total undergraduate costs for residents and non-residents. These lists are rank ordered by total costs and by total costs within types of institutions. Figures 3 and 4 show mean, resident and non-resident total costs for the years 1981 to 1986.

An examination of the trends in total undergraduate costs for residents over the five year period beginning in 1981 and ending in 1986 shows a consistent yearly increase in median costs. On average, there has been a 9.0% yearly increase in costs over the six years, with an increase of 5.9% occurring between 1985 and 1986. The yearly median costs for the years 1981 through 1986 are \$18,911.00, \$21,197.00, \$23,555.00, \$26,453.50, \$27,422.00, and \$29,052.00, respectively.

* See Table 2 for tuition plus mandatory fees.
